

**DESIGNER, ARCHITECTURAL DESIGN
CHUTE GERDEMAN, INC. | COLUMBUS, OH USA****POSITION OVERVIEW**

Working within the Architectural Design Studio, Architectural Designers are key members of each project team. Architectural Designers work collaboratively with team members from various creative studios to translate designs into real places and spaces.

The responsibilities of Architectural Designers may vary by project. Specific activities may include design intent documentation and production support, collaboration with internal design studios (Strategy, Brand Environments, Brand Communications, Graphic Production, and Digital Design), custom fixture production and documentation, assistance with materials selection, and supporting the Project Lead with the communication to third party architectural development and consultant teams.

ESSENTIAL JOB REQUIREMENTS

- BA/BS degree in Architecture, Interior Design or equivalent field of study or work experience.
- 2-5 years of professional interior or architectural design experience.
- Knowledge of construction documentation production, coordination, and conceptual detailing.
- Ability to translate conceptual design into working drawings.
- Ability to understand engineering documents for coordination purposes.
- Ability to complete redlines thoroughly (highlighting when complete) and return to Project Lead.
- Ability to clearly and effectively communicate with the Project Lead regarding task completion and/or project challenges as they arise.
- Knowledge of building codes, ADA and construction specifications.
- Experienced with Revit and AutoCAD.
- Familiarity with Adobe Creative Suite.
